

# Assign specific students to specific teachers

If teachers need not create content and only grade on existing content / assignments, we can use the Moodle Groups features to assign non-editing teachers and their respective students in a single group in a course and create many such groups.

Moodle's default non-editing teacher role allows access to all groups. For our requirements, we can prevent that by disabling that capability for non-editing teacher.

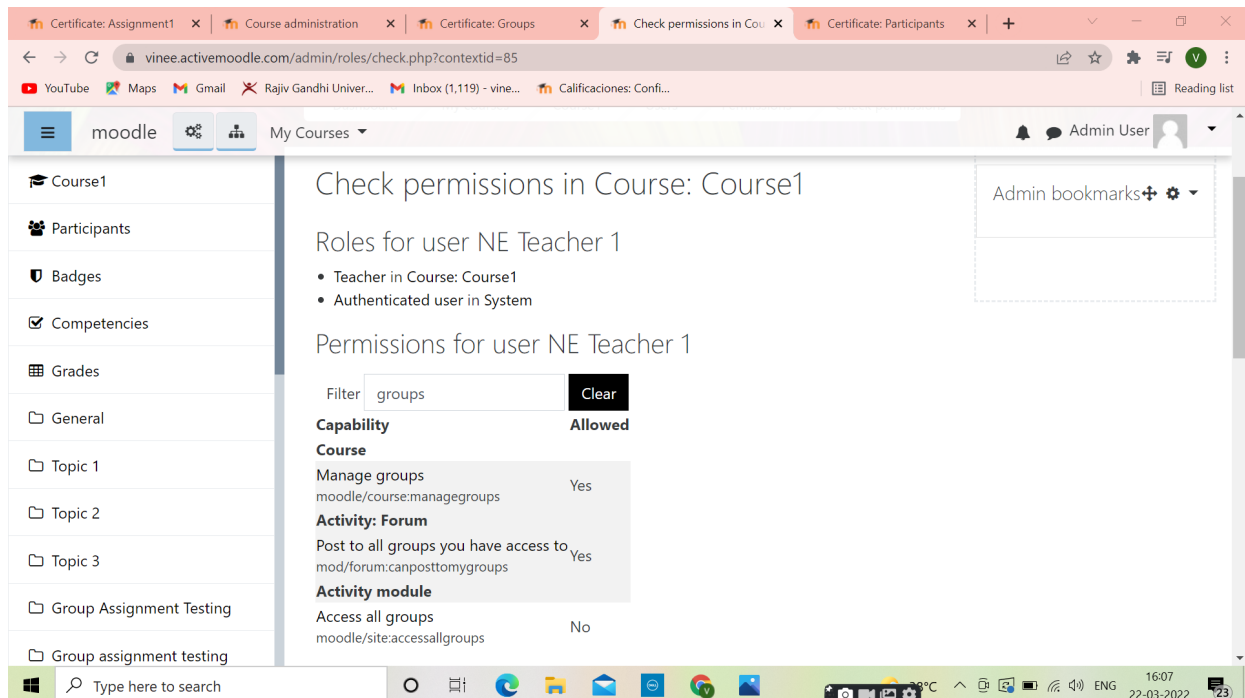

This will enable to assign non-editing teachers in Moodle to specific groups and only allow them to see/grade the students in which they are a member. This is demonstrated below.

Please note that the course and the content will need to be created by either an editing teacher / admin.

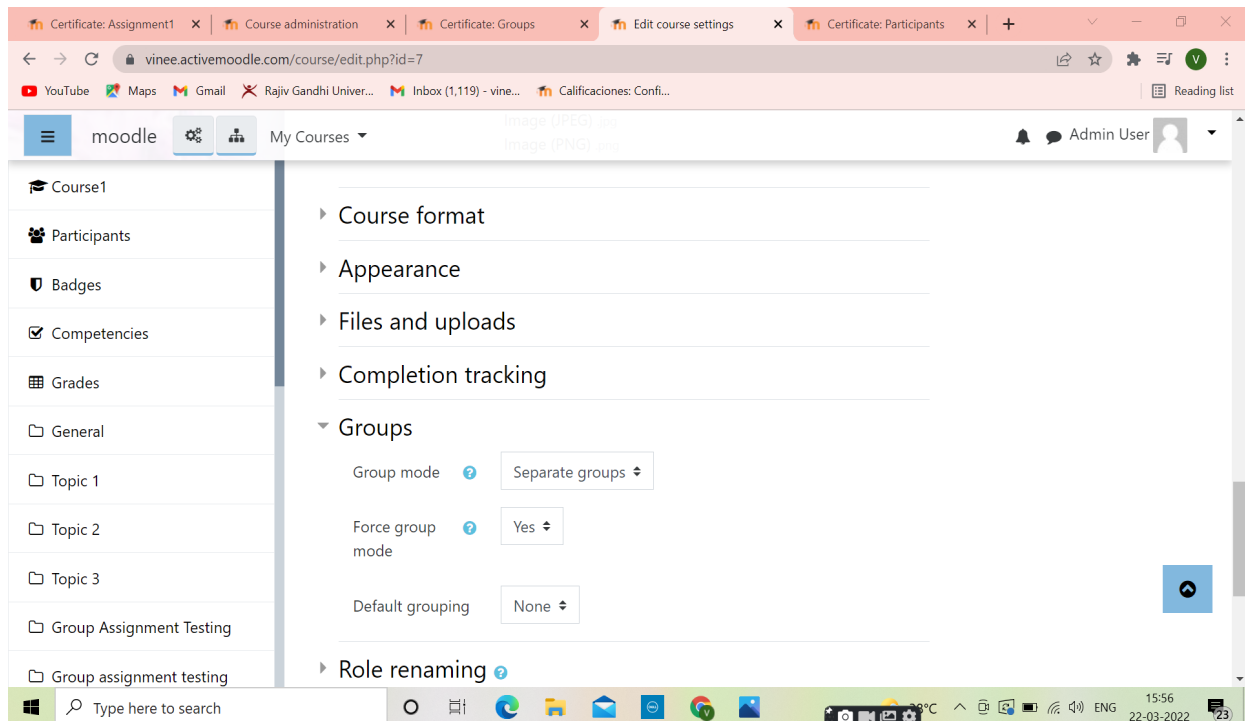

In Course "Course 1- Assignment 1" we have students: student1, student2, student3, student4 etc and teachers: NEteacher1, NEteacher2, NEteacher3, etc. We have Course groups: Group A (containing student1, NEteacher1), Group B (containing student2, NEteacher2), Group C (containing student3, student4, NEteacher3).

## Configuration

1. After you have your students and teachers in separate groups then Go to Settings>Users>permissions>define roles and prevent non-editing teachers from being able to "access all groups" so that they can only see the assignments of the groups they are in.

- You need to go into the course settings, and under Groups > Group Mode, select Separate Groups. so that each group member can only see their own group and others are invisible.

Now once the student of a group submits the assignment, only a non-editing teacher of that group might be able to see the submission and grade the assignment. This can be seen in the screenshots below.

Case 1- NE Teacher1 can view the submission and grade the assignment of student1 in the NETeacher1group.

The screenshot shows a Moodle interface for an assignment titled "Course1: Assignment1". The URL is <https://vinee.activemoodle.com/mod/assign/view.php?id=275>. The user is logged in as "NE Teacher 1". The left sidebar shows a course structure with "Group assignment testing" selected. The main content area displays a "Grading summary" for "Separate groups: NE Teacher1".

Item	Value
Hidden from students	No
Participants	1
Submitted	1
Needs grading	1
Time remaining	6 days 7 hours

At the bottom of the summary, there are two buttons: "View all submissions" and "Grade".

Case 2- NE Teacher3 can view the submission and grade the assignment of student3 and student4 in the NETeacher3 group.

The first screenshot shows the Moodle 'Grading' interface for 'Course1: Assignment1'. It displays a list of participants with columns for 'Select', 'User picture', 'First name / Surname', 'Email address', 'Status', 'Grade', 'Edit', and 'Last modified (submission)'. Two students are listed: 'student 3' and 'student 4', both with a status of 'Submitted for grading' and a grade of 'Grade'.

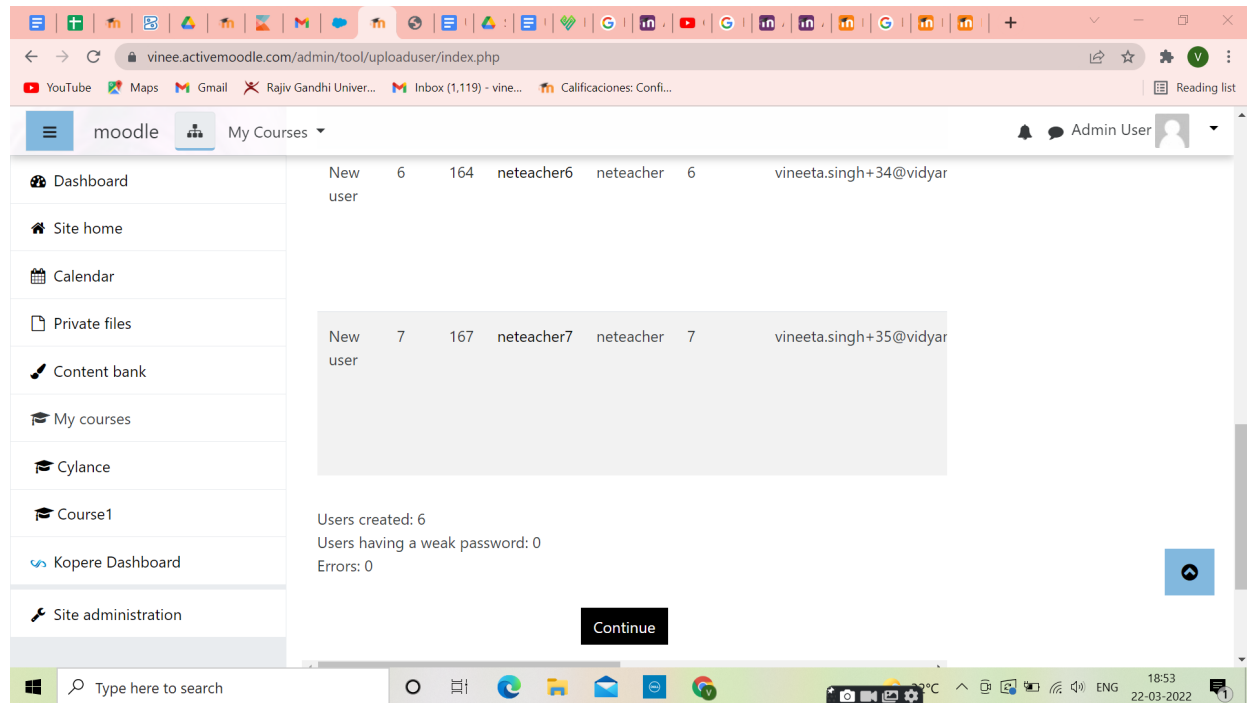

The second screenshot shows the 'Grades View' interface for 'Course1'. It displays a table with columns for 'First name / Surname', 'Assignment 2', 'Assignment 3', '[Deletion in progress] Assi...', 'Assignment1', and 'Course total'. The table shows grades for 'student 3' and 'student 4', along with an 'Overall average' row.

Uploading Bulk users in a course and assigning them to multiple groups via CSV user upload.

We will be needing the data in the csv format as mentioned in the spreadsheet [https://docs.google.com/spreadsheets/d/1o9kxiwOFj8MWwUFHJUIJy\\_MuWdhB4rvqXI1it54HVhY/edit#gid=534325042](https://docs.google.com/spreadsheets/d/1o9kxiwOFj8MWwUFHJUIJy_MuWdhB4rvqXI1it54HVhY/edit#gid=534325042) for uploading bulk user, enrol user into a course and assigning them to a specific group.

Please find the screenshots for successful bulk user upload below.
